WHERE WE SERVE

Local Inventory and Fast Field Support Across the Mid-Atlantic

Serving projects throughout Virginia, Maryland, Delaware, and North Carolina, with stocked inventory and field technicians who travel to your site.

REGIONS WE COVER

- ✓ Northern Virginia & the DC Metro area
- ✓ Richmond & Central Virginia
- ✓ Hampton Roads & Southeast Virginia
- ✓ Maryland, Delaware & North Carolina

WHAT LOCAL MEANS

- ✓ Stocked inventory ships fast
- ✓ Field technicians on-site
- ✓ Serving the region since 1981

INDUSTRIES WE SERVE

Water &
Wastewater

Municipal &
Government

Fire
Protection

Industrial &
Process

Commercial &
Institutional

Plus the contractors, engineering firms, OEMs and supply houses who serve them. If your process moves liquid or air, let's talk.

We start with how your system actually operates, then match the equipment to it.

Easy to Work With.
Focused on Your Success.

SWaM CERTIFIED · VETERAN-OWNED

Serving Virginia, Maryland, Delaware and North Carolina since 1981

CORE EQUIPMENT SOLUTIONS

High-Quality Products for Demanding Applications

Selected and sized to fit your application, whether that's a stock replacement or a fully engineered package.

Pumps

- ✓ Centrifugal, End Suction & Split Case
- ✓ Vertical & Self-Priming
- ✓ Magnetic Drive & Gear
- ✓ Dosing / Metering

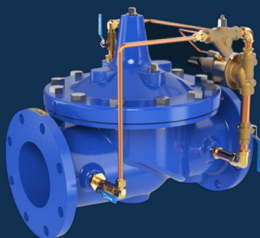

Blowers

- ✓ Positive Displacement (Roots-Type)
- ✓ Rotary Lobe & Rotary Screw
- ✓ Centrifugal Blowers
- ✓ Vacuum Blowers

Valves & Actuation

- ✓ Ball & Butterfly Valves
- ✓ Gate, Globe & Check Valves
- ✓ Actuators & Positioners
- ✓ Valve Automation

Fire Protection Systems

- ✓ Fire & Jockey Pumps
- ✓ Diesel & Electric Drivers
- ✓ Skid Mounted & Custom Packages
- ✓ Testing, Certification & Repair

ONE SOURCE FOR PUMPS, BLOWERS, VALVES & FIRE PROTECTION SYSTEMS

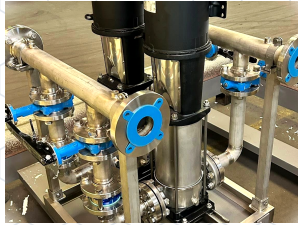

ENGINEERED SYSTEMS & CONTROLS

Integrated Solutions for Monitoring, Automation & Performance

1

Engineered Skid Systems

- ✓ Booster Systems
- ✓ Chilled Water Skids
- ✓ Chemical Feed Systems

2

Motors & Drives

- ✓ Electric Motors
- ✓ Control Panels
- ✓ VFD Drives

3

Blower Packages

Configured to your economic constraints and operational demand, so the package runs the way your process needs it to.

Integrated Systems Available

System Design

Engineered for performance and reliability

Custom Fabrication

Built to your specifications and standards

Controls Integration

Seamless automation and system integration

Startup & Support

Commissioning, training and ongoing support

Pressure & Temperature

- ✓ Gauges
- ✓ Transmitters
- ✓ Thermocouples / RTDs
- ✓ Thermowells

Flow Measurement

- ✓ Electromagnetic
- ✓ Coriolis
- ✓ Ultrasonic
- ✓ Thermal Mass

Level Measurement

- ✓ Radar / Guided Radar
- ✓ Ultrasonic
- ✓ Submersible
- ✓ Level Switches

ENGINEERED, INTEGRATED AND SUPPORTED START TO FINISH

Designed, fabricated, commissioned and serviced by ESP

WORKING WITH ENGINEERS & CONTRACTORS

A Technical Resource From Concept to Startup

FOR DESIGN ENGINEERS

Early technical input.

Straight answers on unusual or difficult applications, before they become a submittal problem.

Lunch and learns.

Continuing education on pump, blower, and fire pump fundamentals, scheduled around your team.

Spec language, ready to use.

Three-part specification language that keeps your documents compliant and competitively bid, never a sole source.

Documentation up front.

Manufacturing history, reference installations, and NSF/ANSI 61 records gathered before the submittal deadline.

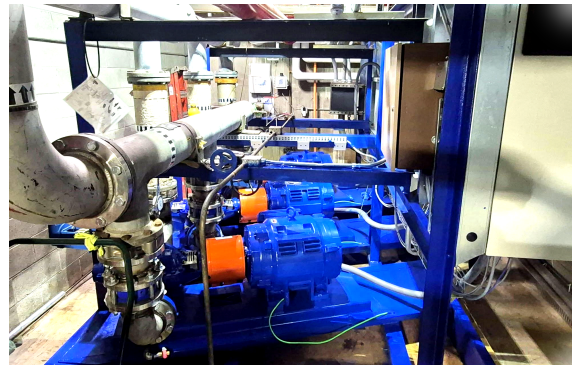

FOR CONTRACTORS

Complete or-equal packages.

Fire pump, pump, and blower packages built to match your project's drawings, not just a swapped-in component.

In-house fabrication.

Adapters, transitions, and mounting fit-up built in-house when the standard product doesn't match your drawings.

ASK ABOUT OUR SUBSTITUTION GUARANTEE

We offer a guarantee on qualified bids. Contact us to see if yours qualifies.

SERVICE, REPAIR & SUPPORT

Keeping Your Systems Running. Minimizing Downtime. Maximizing Performance.

FULL SERVICE CAPABILITIES

1

Preventive maintenance

Scheduled maintenance programs to optimize equipment reliability and performance.

2

Pump & blower repair

Expert repair for all major brands of pumps, blowers and rotating equipment.

3

Field service

On-site troubleshooting, diagnostics and repair to get your equipment back online fast.

4

Parts & components

Genuine OEM and premium replacement parts with fast turnaround.

5

System optimization

Performance evaluations and upgrades to improve efficiency and reduce operating costs.

Equipment We Service

- ✓ Pumps, All Types & Brands
- ✓ Blowers, All Types & Brands
- ✓ Motors & Drives
- ✓ Mechanical Seals
- ✓ Control Systems
- ✓ Valves & Actuation
- ✓ Instrumentation
- ✓ Fire Pump Systems
- ✓ Packaged Systems

Why Partner With ESP?

- ✓ **Experienced & reliable**
Decades of industry experience you can count on.
- ✓ **Factory trained technicians**
Skilled professionals with deep product knowledge.
- ✓ **Fast response**
Quick turnaround to minimize downtime and keep you running.
- ✓ **Commitment to quality**
We stand behind our work and your success.
