

FIRE PROTECTION LINE CARD

Complete Fire Protection Pump Solutions & Service

UL, ULC, and FM-approved fire pump units, jockey pumps, diesel and electric drivers, controllers, and fully engineered skid or housed packages, backed by in-house repack, overhaul, and flow-testing service on most fire pump manufacturers since 1981. Serving Virginia, Maryland, Delaware, and North Carolina.

- ✓ Fire Pump Packages
- ✓ Jockey Pumps & Controllers
- ✓ Diesel & Electric Drivers
- ✓ Controller Troubleshooting & Repair
- ✓ Supply Water Tanks
- ✓ Repack, Overhaul & Flow Testing

SWaM CERTIFIED

BUILT FOR EVERYONE WHO KEEPS THE PUMP ROOM READY

Facility & Building Managers

One regional partner for the pump room since 1981: repacks, overhauls, and annual flow testing on any manufacturer.

Fire Sprinkler & Suppression Contractors

Skid-mounted, housed, and fully enclosed packages staged and started up on schedule, with in-house fabrication when a standard package doesn't fit.

Fire Protection Engineers & AHJs

UL, ULC, and FM-approved pump, controller, and driver combinations matched to your basis-of-design and hydraulic calcs.

Our Services Include

- Fire pump repacks, overhaul & testing — most fire pump manufacturers
- Control panel troubleshooting and repair (common makes & models)
- Motor repair and replacement
- In-stock fire pump parts for all Peerless / Grundfos pumps
- Jockey pumps and jockey pump controllers in stock
- Testing equipment: hoses, pitot tubes, tachometers

Every pump is disassembled, inspected, cleaned, reassembled & test run, never just repacked.

Doing the Job Right the First Time, Since 1981.
