

INDUSTRIAL & PROCESS LINE CARD

Engineered for Industrial Process Chemical, Food & Manufacturing

Pumps, blowers, valves, and instrumentation engineered for chemical, food & beverage, paper, and manufacturing process lines, backed by stocked inventory, factory-trained field technicians, and engineered skid systems matched to your process drawings. Serving Northern Virginia, Maryland, Delaware, and North Carolina since 1981.

- ✓ **Pumps & Process Skids**
- ✓ **Process Air Blowers**
- ✓ **Valves & Actuation**
- ✓ **Instrumentation**
- ✓ **Mechanical Seals**
- ✓ **Service & Repair**

SWaM CERTIFIED

BUILT FOR EVERY ROLE ON THE PROCESS LINE

Maintenance & Reliability

Factory-trained service, repair, and system optimization to minimize process downtime.

Process & Plant Engineers

Or-equal packages matched to your process drawings, plus in-house fabrication when a standard product doesn't fit.

Plant Managers

One regional partner since 1981 across pumps, blowers, valves, and instrumentation. SWaM Certified.

**Fast Field
Support**

**Local
Inventory**

**Or-Equal
Packages**

**Since
1981**

REPRESENTED LINES

EQUIPMENT FOR CHEMICAL, FOOD & BEVERAGE, PAPER & MANUFACTURING

PUMPS: PROCESS

ANSI, FRP/corrosive, centrifugal, submersible, metering & more

BLOWERS & PROCESS AIR

Positive-displacement blower packages

VALVES & ACTUATION

Mechanical, electric, pneumatic & water-actuated

INSTRUMENTATION

Flow, level, pressure & temperature

MECHANICAL SEALS

Reliability & leak prevention

MIXING

Blending & chemical mixing

MOTORS & CONTROLS

Motors, drives & controls

Know the boundary: ESP does not offer rotary valves/diverters for dry bulk handling or dense-phase pneumatic conveying/compressors. Route these to a specialist.

MAINTENANCE & RELIABILITY

- Factory-trained service, repair & system optimization on all major brands
- Fast turnaround to minimize process downtime

PROCESS & PLANT ENGINEERS

- Complete or-equal packages matched to process drawings
- In-house fabrication when discharge, nozzle, or anchor layout don't match standard

PLANT MANAGERS

- Engineered skid systems: chemical feed & custom process skids, serviced by ESP
- One regional partner across pumps, blowers, valves & instrumentation

We start with how your system actually operates, then match the equipment to it.

Easy to Work With. Focused on Your Success.

SERVING VIRGINIA, MARYLAND, DELAWARE AND NORTH CAROLINA SINCE 1981
